

Gifts In-kind

It's time to show YOU CARE and we invite you to contribute to support projects of sustainability and responsible tourism

Tourism Plus Foundation is not-for-profit Public Trust solely supported through donations and contributions. Our target is that approx. 80% of our corpus is utilized for the projects undertaken besides other charitable causes supported through associated NGOs in the Education and Health for children of underprivileged families.

It is thus, imperative that our administrative expense is controlled which, at times, takes its toll on projects by downsizing the parameters. Also, our objectives loose pace for want of appropriate funding on account of ancillary expenses on travel, board, lodging etc.

Whether you are a corporate, Association, Federation, Tourism or Hospitality company, we seek your support to extend Gifts In-kind that include Air & Rail Travel, Transportation, Accommodation, Event Spaces, Memberships of Associations/Federations..... This will ease on the funds we raise for higher allocations to projects and assignments we undertake.

Please do consider the following parameters that have been arrived at after due consideration and thought process and hope it will not disappoint you:

For Air/Rail Travel:

- For any assignment, we depute minimum two officials and expect tickets for to & fro travel ex-Delhi by Air/Rail. The More than merrier -- if you care to support frequently.
- The offer/authorization is to remain valid for 6 months, extendable if not utilized during the validity
- Name of passengers will be provided at the time of booking

Board & Lodging

- Ideally, one twin bedded room for minimum three nights is most suited during any assignment. However, the frequency may increase depending upon work requirement and can be requested for if need be.
- While projects/assignments selected could be at various locations, our request is to keep the validity open in a given financial year (subject to availability) if accommodation offered at offline locations.

Gifts for Contestants

- We are also running a regular contest, on our website, for Best Frame and Best Travel story that are selected quarterly. We would appreciate if your sponsor Accommodation coupons for two nights stay (during off-season) valid for three months/Transport Vouchers/Air Travel/Souvenir/gifts. We shall notify you names at the time issuing coupons to the winners.

Transportation:

- Complimenting use of Transport in intra-city/inter-city would go a long way in saving time and energy while maintaining schedules. The transport requirement could again be for three days and above whereas frequency of such requirements is unknown but could be ascertained and conveyed at the time of finalizing any project.

Event Spaces (Conference/Banquet Hall) for Workshops:

- We regularly hosts various workshops addressing issues ranging from Health, Technical Trainings, to Environment for the Hospitality Industry involving Stake holders, Technical Staff and the Management. It is expected of the Accommodation Providers to offer Conference/banquet Spaces on total gratis for the sessions.

Event Spaces (Travel Marts/Shows/Events):

- Our objective is to bring the Tourism Industry under one umbrella for Environment issues and to work towards Sustainable & Responsible Tourism. To promote the cause, we wish to participate in travel events/shows/marts and would be looking for support to contribute towards space rentals
- Our request also goes to Travel Show organizers to join with us for the sake of Tourism, Environment and livelihood of people attached with the Industry directly or indirectly by allowing space to our Foundation during their events across India.

Memberships of Associations/Federations:

- Associations & Federations are the platforms to be heard more loudly and clearly and we would be too keen to be associated with Travel & Hospitality Associations/Federations. Our status being a Not-for-profit Public Trust, we would request all the Associations/Federations to enroll us on gratis as we plan to rope in your members to be more sensitive towards environment and make the destinations lively and enjoyable.

We do hope to receive your overwhelming response for better tomorrow for the Industry and for the mother earth. Do visit our website www.tourismplus.org for more information about our activities.

In case of any query, please write to us at tourismplus@outlook.com or leave your comments in our Facebook or Twitter page and we shall ensure to revert to you within 48 hours.
